Very Low Battery

Full Battery

Charging Battery

Sign  indicates that the power of battery is full. When the battery level becomes too low, a prompt comes up to note you to charge your tablet.

ENG

The charge status can be found on the upper lefthand corner, as shown below.

Заряд батареи (41%)

The tablet may take 4-5 hours to charge to full.

Note: Sometimes 100% charging may not show up, even the tablet has been charged for a very long time (more than 5 hours). The battery is actually full, but the charging info is delayed. In this case, you may unplug the power cable.

Tips on extending battery life:

1. New battery will be its best condition after 2-3 full charging and discharging
2. Streaming audio or video apps will use a lot of battery life.
3. Disable wireless network positioning. You can turn it off from **Settings → Location & Security → Use wireless networks**.
4. Switch off Wi-Fi if you're not close to a strong Wi-Fi signal for extended periods of time. This puts strain on the tablet.
5. Use a quick screen timeout. You can alter this option from **Settings → Display → Screen timeout**
6. Reduce brightness to a comfortable level using **Settings → Display → Brightness**.
7. Widgets that access the Web consume more power than widgets that do not.

Note:

1. Do not use other adaptors to charge your tablet which can cause damage to the battery.
2. The tablet can not be charged via USB cable when it is connected to your PC.

ENG

CONNECTING TO COMPUTER AND TRANSFERRING DATA

Connect to PC via USB cable

When unit is connected to PC with a USB cable, the icon  appears at the middle of the status bar. **Tap it and select USB connected, then Turn on USB storage dialog appears. Tap OK.**

To remove the tablet safely, tap Turn off USB storage.

Transferring contents from computer:

- To import contents (ebooks, video, audio, photo etc) into device, connect it to PC via the supplied USB cable.
- Upon successful connection to PC, turn to the device, touch and hold the USB connection icon on status bar, drag downwards to display an ongoing list.
- Select “USB connected”, then tap on “Turn on USB storage” to enter USB mode and all operation will be halted.
- Go to [My Computer], double click on the device’s disk to open.
- Perform normal file management operation like other USB device.

MEMORY CARD

This unit supports Micro SD card up to 16 GB.

To insert a memory card:

Insert the card correctly with the contact pin facing downwards as illustrated below. Pushing the card in, you should hear a click when the card is seated correctly. You may damage the card and the device if Micro SD card is not inserted correctly. To remove Micro SD card, push the card once again until it clicks.

- When a Micro SD card is inserted in or ejected from the device, it may take few seconds for the device to update the content. Please avoid inserting or ejecting Micro SD card when other operation is running as this may cause the system hang.

ENG

- Do not remove the card if the content inside the card is being played. This will halt the operation of the device and cause the device to restart.
- If the system is not responding press the button [Reset] to reset.

HOME SCREEN

When the device is turned on, it will enter into the home screen.

You can fill the space with any combination of shortcuts, widgets, and folders you like. Some pre-installed shortcut icons will appear at the bottom, and a **Google Search** widget appears at the top. When you power on your tablet for the first time, you'll see the main home-screen panel.
